

Barry Anderson

1934—2017

In 1966, Barry Anderson became the Choir Master and Organist at Knox United Church in Winnipeg, a position he held until his retirement in 2012 after 46 years of service. No one person so shaped the ministry of the congregation as he did with his exceptional talent and his ability to work with people. Barry was lured away from Westminster United Church, also in Winnipeg, with the chance to design and oversee the installation of the Cassavant organ, later renamed the Anderson organ at the time of his retirement.

Barry's musical talents were shared with many organizations in the community, proudly playing the organ for choirs, convocations, funerals and worship.

Barry died October 22, 2017.
